

EMERGING TECHNOLOGIES TRAINING

Blockchain Project Management

5 day course

Classroom, online or in-house

Course overview

Blockchain projects fail in characteristic ways: a use case chosen for the technology rather than the problem, a consortium that cannot agree governance, a pilot that works and then has nowhere to go. This course addresses those failure modes directly. Delegates learn to test a use case before committing, to structure a proof of concept with an exit criterion rather than an open ended budget, to negotiate governance across organisations that are also competitors, and to plan the path from pilot to production that most initiatives never complete. The course also covers vendor selection, regulatory engagement and the specific estimating difficulties of work on immature technology.

What you will learn

- Test a proposed use case before committing budget to it
- Structure a proof of concept with defined exit criteria
- Negotiate consortium governance between organisations that compete
- Plan the route from pilot to production explicitly
- Select and manage vendors on immature technology
- Estimate and schedule work where the technology itself is a variable
- Engage regulators early enough to matter

Who should attend

- Project and programme managers
- Product owners and business analysts
- Innovation and digital transformation leads
- Consortium and partnership managers
- Sponsors funding distributed ledger initiatives

Course outline

- 01 How blockchain projects fail, and the pattern behind it
- 02 Use case testing: the questions to answer before any budget is committed
- 03 Proof of concept design and defining what would make you stop
- 04 Consortium governance between competitors
- 05 The pilot to production gap, and planning for it from the start
- 06 Vendor selection and contracting on immature technology
- 07 Estimating and scheduling under technical uncertainty
- 08 Regulatory engagement and timing

Upcoming dates

Dates	Venue	Format	Fee per delegate
26 to 30 October 2026	Lagos, Nigeria	Classroom	USD 1,325
9 to 13 November 2026	Online	Online	R8,500
16 to 20 November 2026	Windhoek, Namibia	Classroom	R19,950
30 November to 4 December 2026	Dar es Salaam, Tanzania	Classroom	USD 1,325

Fees and how to register

This 5 day course is **R8,500** per delegate online, **R19,950** in the classroom in South Africa, Botswana, Namibia, Lesotho and Eswatini, and **USD 1,325** in the classroom elsewhere in Africa. In-house training is quotation on request. Book 2 or more delegates on this course and save 10%.

To register or request an in-house proposal, visit www.afrisciencegroup.com, email info@afriScience.co.za, or WhatsApp us on **+27 63 479 1136**.
